

Year 6 Reveal Their Dreams and Aspirations

A few weeks ago, year 6 did their second class assembly and they shared with us their dreams and aspirations. The children did absolutely brilliantly- they made their own scripts and delivered them with confidence, humour and expression. We have no doubt that they will all go on to achieve great things in the future and will leave a large hole in the Kings Avenue community. We are now back to studying hard, getting ready for SATs and Secondary school. Well done year 6, you smashed it!

Year 1 Update

This term in Year 1 has been very busy. Lots of learning, fun and laughter. We have learned about materials in science – did you know that glass is made from sand?

We learned how to write poems and can't wait for the poetry competition.

We have also been practising our timetables and are now quite good at our 2s and 5s. We are still learning our 10s.

Lots of fun in year one and we even hosted movie night.. that was great!

EARLY YEARS UPDATE

Our theme for this term is Weather, Seasons and Celebrations, so we made some rain clouds with shaving foam, food colours and water. We also celebrated Chinese New Year (Year of the Rabbit) by making Chinese lanterns and cooking vegetable noodles which we enjoyed so much.

Making clouds

Making paper lanterns

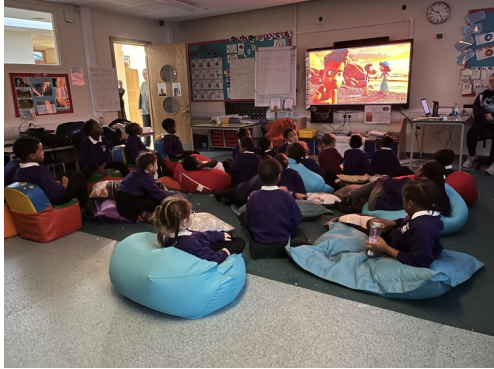

Making noodles

Enjoying our vegetable noodles

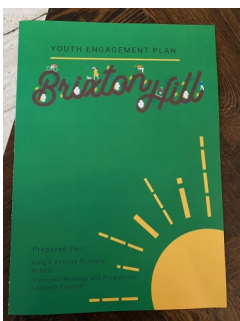

KASA Movie Night A Success

Thank you to those of you who supported the movie night on Wednesday. The children had a great time and the funds raised will go towards the school. We are eagerly looking forward to the next event!

Pupils Have Their Say on Brixton Hill LTN

On Wednesday 25th January, Years 4-6 had an assembly with a representative from the local council. It was to discuss the turning a section of Lyham road (by the Londis) into a no driving area. The children (and staff) are heavily opposed to this idea, and the children shared absolutely fantastic, mature ideas with the lady. Sadly, it is going ahead as a trial period, but the council representative is going to come back later in the school year to see how we have found it. We all strongly hope this will not be a permanent fixture to our near-by road!

PE—Focus on Gymnastics

At Kings Avenue, our PE curriculum is delivered by specialist. So far this year pupils have worked on developing their ball skills in football, rugby, basketball and netball. This term the focus has been on gymnastics and developing their ability to:

- balance
- jump
- take the weight on their hands
- roll (tuck, pencil, forward and backward)
- put together a sequence of movements
